

**Expression of interest to contribute to the Dissemination of the Health programme results 2014-2016**

**1. Exhibition of the health programme booth and distribution of information materials in national health related events,**

For the exhibition of the health programme booth and distribution of information materials in national health related events, EAHC intends to cover large events with at least 100 participants. The Health Programme booth will be send, together with information material about the Health programme and the project results. The target audiences are academic organisations, health policy makers and public health specialists.

You are invited to propose relevant events, which are already under organisation by the national, regional or local health stakeholders, like the public health associations, medical associations, summer schools, health policy dialogues, etc, and propose to them the reservation of a space for the exhibition of the booth. The National counterparts are expected to provide the contact with the event organisers, reservation of the booth space, promote the booth to national stakeholders, press, etc.

EAHC contractor can cover the expenses related to the expedition of the booth, offer of a receptionist to distribute the materials; reproduction of information materials, etc.

YES - We confirm the intention of the (Country) to support the exhibition of the HP booth at,

**2. Organisation of knowledge base workshops focus on the Health programme results, following one of the thematic priorities**

EAHC proposes to organise a maximum of 4 knowledge base workshops per year. The thematic workshop can bring together more than one country, following regional priorities covering an European regions, like the Baltic countries or Eastern Europe. The knowledge base workshop should address one specific theme, given the opportunity to present the results from several Health programme projects, fostering the exchange of knowledge and best practices between European experts and countries. The priority themes following the NFP survey are: Chronic diseases & healthy ageing, Nutrition and healthy lifestyle Cancer, Patient Safety & quality of care, Health inequalities, HIV/AIDS and the New Health Security initiative. The target audiences to be reached are health practitioners, academia, health policy makers, and civil society organisations.

The National counterparts interested to organise a knowledge base workshops are expected to select the topics and define the scope of the meeting, propose the meeting agenda, identify national experts and speakers and participants, promote the event to national stakeholders, press, collaborate with the EAHC contractor for the meeting logistic, etc.

EAHC contractor can cover the expenses related to the participation of speakers (travel cost and fees), catering for the participants of specific workshops, reproduction of meeting materials, translation, press coverage, etc.

YES - We confirm the intention of the (Country) to support the Organisation of knowledge base workshops focus on the Health programme results, following the thematic priorities. Please choose one topic:

### **3. Production of information sheets about the HP projects outcomes focusing in one of the thematic priorities relevant results per country/region**

The Information sheets on key results following the thematic priorities will be produced to present the Health programme benefits per country/region. They aim to increase the dissemination of the HP evidence to politicians/health policy managers. The target audience are national and regional policy makers. EAHC proposes to have a maximum of two information sheets following specific thematic priorities per year. The information sheets on key HP results will be synthetic, translated to the all EU languages. The focus will be on main policy areas, presenting brief summary of implementation of one portfolio, including country specific information on the EU MS participation and benefits.

The National counterparts interested to produce information sheets are expected to select the topic, define the scope of the information sheets, identification of relevant initiatives following the National policy priorities, dissemination at national level, using press, scientific journals, professional societies and websites,.

EAHC contractor can cover the expenses related to the production of the information sheets, reproduction, translation, production and publication of articles in the press, etc.

YES - We confirm the intention of the (Country) to support the production of Information sheets:
