

Summer exam session of the academic year 2019/2020- Cardiac and Vascular Surgery

Dear Students,

In regards with the epidemic situation in the country and the decision of the RC – protocol No8/05.05.20, the examination for "Specialized surgeries – Section of Cardiac and Vascular Surgery" for MEDICAL students – IV course will be conducted REMOTELY with the help of the already established platform - MS Teams- for the implementation of video and audio control of students during the exam.

The complex test itself will be conducted using a specialized web-based platform- **Exam.net**.

Dates for practice tests are demonstrated in the table below.

If there are any further questions about the forthcoming exam session and working with the platform – **Exam. Net**, you can send e-mail to the controller and responsible assistant professor for distance education and exams: Konstantin.dimitrov@mu-plovdiv.bg

The format of the exam will be a test of 60 questions. The distribution of the questions will be as follows:

1. 50% of the questions will include the material from the cardiac surgery section and 50% of the vascular surgery section respectively. **All of the questions will be prepared from the “Manual of Cardiac and Vascular Surgery”!!!**
2. The types of questions that will be included in the exam test are:
 - 2.1 **56** questions of MCQ – type with one correct answer, each giving 1 point.
 - 2.2 **4** “Open type” questions - 2 of the open questions will have a lower level of difficulty and each of them will be evaluated with a maximum of 5 points. The remaining 2 open questions will have a higher level of difficulty and each will be evaluated with a maximum of 10 points (so-called open questions with a long answer).
3. The test will be performed for a specific time of **36 min! NB:** The tests of the students submitted their results later will not be revised by the examiners.
4. Scoring scale: **MAXIMUM TEST points-86 p.**
 - 60-69%- Grade of (3) – 52-60 p
 - 70-79%- Grade of (4) – 61-69 p
 - 80-89%- Grade of (5) – 70-78p
 - 90-100%- Grade of (6)- 79-86 p
5. The technical Instructions for conducting the exam are fully prepared according to the instructions from the IT- department and each of the assistant professors should inform each student group about them.
6. An approbation of the exam will be organized.
7. In the uploaded Syllabus for the exam on the will be indicated all the sources needed to prepare the students for the exam session.
