

FACULTY OF DENTAL MEDICINE
DEPARTMENT OF ORAL SURGERY

Oral and maxillofacial surgery

4th year (VIII semester), Summer Term, 2020 / 2021

№	TOPIC	LECTURER	DATE
1.	Cysts of the jaws. Classification. Etiology and pathogenesis. Clinical signs. Methods of diagnosis.	OS	09.02.2021
2.	Cysts of the jaws. Differential diagnosis. Treatment.		
3.	Soft tissue cysts in oral cavity and maxillofacial area. Clinical signs, methods of diagnosis, differential diagnosis. Treatment.	OS	23.02.2021
4.	Salivary gland diseases – sialadenitis. Classification. Etiology and pathogenesis. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
5.	Reactive-dystrophic processes in salivary glands (sialoadenoses). Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment. Sialolithiasis.	OS	09.03.2021
6.	Temporomandibular joint disorders - arthritis and arthrosis. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
7.	Temporomandibular joint disorders – subluxation, luxation, myofascial pain dysfunction (MPD) syndrome, contracture, ankylosis. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.	OS	23.03.2021
8.	Trigeminal neuralgia. Glossopharyngeal neuralgia. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
9.	Surgical approaches for the treatment of periodontal diseases – resective and regenerative surgical techniques.	OS	06.04.2021
10.	Surgical approaches for the treatment of periodontal diseases – periodontal plastic surgery (mucogingival surgery).		
11.	Maxillofacial trauma. General data. Features of maxillofacial trauma disease. Classification. General principles of good trauma management.	MFS	20.04.2021
12.	Soft tissue trauma in oral cavity and maxillofacial area. Classification. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
13.	Mandible fractures. Classification. Clinical signs. Methods of diagnosis. Differential diagnosis. Orthopedic treatment – basic principles.	MFS	11.05.2021
14.	Mandible fractures. Surgical and orthopedic-surgical treatment.		
15.	Facial paresis and paralysis. Paralysis of the hypoglossal nerve. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.	OS	25.05.2021

Tuesday, 14:30h /First week/

Head of Department: Assoc. Prof. Deyan Neychev, DMD, DDS, PhD

FACULTY OF DENTAL MEDICINE
DEPARTMENT OF ORAL SURGERY

Oral and maxillofacial surgery
5th year (X semester), Summer Term, 2020 / 2021

№	TOPIC	LECTURER	DATE
1.	Maxillary sarcoma. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.	MFS	18.02.2021
2.	Mandible carcinoma. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
3.	Mandible sarcoma. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.	MFS	04.03.2021
4.	Benign tumors of salivary glands. Classification. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
5.	Malignant tumors of salivary glands. Classification. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.	MFS	18.03.2021
6.	Lymphoreticular tumors. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.	OS	
7.	Treatment of malignant oral and maxillofacial tumors – basic principles.	OS	01.04.2021
8.	Complications associated with treatment of malignant oral and maxillofacial tumors. Clinical signs. Methods of diagnosis. Differential diagnosis. Treatment.		
9.	Pre-prosthetic preparation of the jaws – soft tissue surgery. Indications and methods.	OS	15.04.2021
10.	Pre-prosthetic preparation of the jaws – bone surgery. Indications and methods.		
11.	Plastic and reconstructive surgery – basic principles. Free skin grafts. Bone grafts.	OS	06.05.2021
12.	Plastic and reconstructive surgery. Flap surgery. Filatov – Gillies tube pedicle.		
13.	Clefts in maxillofacial area. Classification. Etiology and pathogenesis. Clinical signs. Treatment.	MFS	20.05.2021
14.	Jaw deformities and acquired defects in maxillofacial area. Treatment.		
15.	Acquired defects in maxillofacial area. Treatment.	MFS	27.05.2021

Thursday, 14:00h /Second week/

Head of Department: Assoc. Prof. Deyan Neychev, DMD, DDS, PhD
