REGULATION

for conducting of summer clinical training
for 3rd and 4th year students, specialty „Medicine“

According to *Decision of the Rector's Council – Protocol № 7/14.04.2020 the conduction of the clinical training after the 3rd and 4th year of study **is extended by one week.***

1. The summer clinical training is conducted in the period from 26th July 2021 till 29th August 2021 for 30 working days. 15 working days should be at an internal department and 15 working days at a surgical department regardless of the order in which the internship is conducted /the working days are from Monday to Saturday/.
2. The summer clinical training is conducted at the university hospitals in compliance with an approved schedule by the Dean of Faculty of Medicine.
3. The clinical training is conducted under the direct guidance and control of the person in charge in the respective department/section.
4. Every student should register the performed manipulations in a „Diary” for the already conducted summer clinical training.
5. The control of the clinical training is carried out during the last day of the summer training at an internal and surgical department by commissions, which check the acquired practical skills of randomly selected students from each group according to an approved schedule by the Dean of Faculty of Medicine.
6. Apart from the university hospitals the students are allowed to conduct their clinical training in the specified period at other multidisciplinary hospitals for active treatment with an internal and surgical department in Bulgaria or abroad. Students who work in hospitals and have an employment contract will be able to register the training, presenting a certificate from the respective medical institution.

7. Students who would like to conduct their training outside the approved university hospitals, are obliged to submit an application form to the Dean of Faculty of Medicine not later than 12th July 2021 including.
8. Students who have not carried out the summer training in the indicated university bases are obliged to be examined on the practical skills acquired at the internal and surgical department in which the respective group is distributed according to the approved schedule. The control of the skills acquired for the students who have conducted the summer training in the country will be carried out on the last day of the training and for those students who have conducted it abroad - in the period from 13th September to 15th September 2021.
9. Students who have completed their clinical training outside the university hospitals, should present a certified diary, student book and a certificate for conducted summer clinical training when enrolling for the next year of study.

The certificate must contain the following details:

- Name of student;
- Period of conducting the training;
- Name and address of the medical institution;
- Clinical unit;
- Name and signature of an authorized person;
- Seal of the medical institution/clinical unit

10. When enrolling for the next year of study the students must submit at the Registrar's office of the Faculty of Medicine the certified diary and the student book (*according to article 125 paragraph 1 from the Regulation for organization of the educational activities at Medical University - Plovdiv*).
11. A student with uncertified clinical training and not presented diary at the Registrar's office of the Faculty of Medicine is not allowed to enroll for the next year of study (*according to article 125 paragraph 2 from the Regulation for organization of the educational activities at Medical University - Plovdiv*).
12. Enrollment for the next year of study is done not later than two weeks after the beginning the new academic year (*according to article 64 paragraph 1 from the Regulation for organization of the educational activities at Medical University - Plovdiv*).
