

Medical Faculty
Second Department of Internal Medicine
Section of Occupational Diseases and Toxicology

INSTRUCTIONS

to conduct the exam

in Occupational Diseases and Toxicology

with the students majoring in Medicine 3rd year,

Medical Faculty

with teaching in Bulgarian and English

for the academic year 2021/2022

The exam is conducted in accordance with the Regulations for the organization of educational activities at the Medical University of Plovdiv and the approved academic standard for the discipline under the following regulation:

1. The examination is held in person in the Department of Occupational Diseases by a commission approved by order of the chairman of the examination commission, based on an order issued by the Dean of the Medical Faculty, subject to current anti-epidemic measures determined by the Ministry of Health and the Rector of MU-Plovdiv.

2. The exam is conducted according to a schedule agreed in advance with the course leaders and approved by order of the Dean of the Medical Faculty.

3. The appearance of the groups takes place at an interval of 1:30 . The exam with the first group for the day starts at 7.30 am.

4 . Students take the exam with books certified by the Academic Department, the assistant and the lecturer.

6. The exam includes 3 levels:

- entrance test;

- written elaboration of two questions from the syllabus, one of which is obligatory on occupational diseases;

- oral interview to form the assessment

7. The test is prepared in accordance with the officially approved standards of the procedure. It includes 10 questions with one correct answer and is evaluated on a six-point scale. If the student has answered correctly 6 of the 10 questions (ie with 60% correct answers) , the test is considered passed (respectively receives a grade of "average 3") , after which the exam continues to the next level.

8. The final grade is formed by the commission on the basis of the knowledge shown by the student, and is applied by the chairman of the commission in the documentation approved for the purpose.

Assoc. Prof. Dr. Svetlan Dermendzhiev, DMSc, :

(Chairman of the examination commission and head of the Section of Occupational diseases and Toxicology)
