## ANNOUNCEMENT

In implementation of the **National Program "Young scientists and postdoctoral students - 2"** (YSPS-2), Medical University - Plovdiv and the Faculty of Pharmacy **announce a selection procedure for young scientists and postdoctoral students.**

### YOUNG SCIENTISTS MODULE

Eligible applicants are:

- newly employed under the program by MU-Plovdiv, who meet the condition for a young scientist;
- hold the academic position of "assistant" or "chief assistant" (with at least six months of experience at the date of application), and have an employment contract with MU-Plovdiv;
- doctoral students, unregistered with the right of defense and employed under employment contract by MU-Plovdiv;
- part-time or individual doctoral students, enrolled at least six months before the date of application and employed under employment contract by MU-Plovdiv;
- specialists with a higher education who meet the condition of being a young scientist and have employment contract with MU-Plovdiv.

**Young scientist** is a person who carries out scientific research and scientific-educational work in a higher school (university) and/ or scientific organization after acquiring the first educational-qualification degree "Master", **but not more than 10 years after its acquisition.**

Applicants for this module must meet the definition of "**young scientist**" for the entire period of participation in the program (**Master's degree acquired after 01 January 2014**)

## POSTDOCTORAL STUDENTS MODULE

Applicants for this module can be scientists with Doctor's degree acquired in the country or abroad.

**Postdoctoral Student:** a scientist who has obtained a first doctoral degree **but not more than five years after its acquisition.**

Applicants for this module must meet the definition of "**postdoctoral student**" for the entire period of participation in the program (**acquired Doctor's degree after 01 January 2019**).

**It is mandatory for the applicants in the Postdoctoral Students module to participate in the competition with a project proposal, which must meet the following requirements:**

- to be on a relevant topic and at a high scientific level;
- to include a detailed work program for the project period (up to 12 months) and a detailed financial plan, accompanied by justification;
- The proposal must be submitted in Bulgarian or in English language.

### DOCUMENTS REQUIRED FOR APPLICATION:
