

INFORMATION ABOUT THE FINAL EXAM OF STUDENTS IN MEDICINE AND DENTAL MEDICINE

Dear students of the 5th year of medicine and the 4th year of dental medicine,

The semester exam in dermatology and venereology is conducted as follows:

1. Venue - classrooms of the Department of Dermatology and Venereology.
2. Conducting time - 8.00 - 10.00 hours - entrance online test, 10.15 - 16.15 hours - written and oral exam.
3. Technique of conducting the entrance online test - students are divided into groups of 10-15 people who consecutively conduct the online test. The test is conducted with the help of the Questbase program and consists of 50 questions from general and special dermatology and venereology, which must be answered in 20 minutes. A test with over 60% correct answers is considered passed. Those who pass the test continue with a written and oral exam in the specialty. To take the online test, students need to bring smartphones, tablets or laptops. In order to prepare for the exam, each student will be given a preliminary opportunity to complete a sample exam.
4. Technique of conducting the written and oral exam - initially 5 students enter the exam hall, who draw on three questions included in the syllabus, respectively one on general dermatology, one on special dermatology and one on venereology (medicine students), and two questions included in the syllabus, respectively one on special dermatology and one on venereology (dental medicine students). When the first student is ready, the oral exam begins. After completing the exam, the student leaves the hall and is replaced by a new student.
