CLINICAL PHARMACOLOGY LECTURES

MEDICINE 5th year

2024/2025 WINTER SEMESTER

Nr	Date	TOPIC
1.	16.09	Clinical Pharmacology – Introduction. Evidence- based medicine. Drug discovery – the role of clinical pharmacology.
2.	23.09	Clinical and pharmacological approaches for treatment of insomnia.
3.	30.09	Clinical and pharmacological approaches for treatment of pain.
4.	07.10	Clinical and pharmacological approaches for treatment of arterial hypertension.
5.	14.10	Clinical and pharmacological approaches for treatment with antianginal drugs.
6.	21.10	Clinical and pharmacological approaches for treatment of chronic heart failure. Drug epidemiology. Drug safety.
7.	28.10	Clinical Pharmacokinetics – Pharmacokinetic indices, clinical consequences for efficacy of drug therapy.
8.	04.11	Clinical and Pharmacological approaches for treatment with antimicrobial drugs.
9.	11.11	Clinical and pharmacological approaches for treatment with antiulcer drugs. Food regimen and drug therapy.
10.	18.11	Clinical and Pharmacological approaches for treatment of bronchial asthma.
11.	25.11	Pharmacoeconomics. Adverse drug reactions.
12.	02.12	Clinical chronopharmacology. Clinical pharmacogenetics. Drug therapy in the elderly.
13.	09.12	Drug interactions – Benefit / risk ratio.
14.	16.12	Drug therapy in patients with liver, renal and heart failure.
15.	23.12	Pharmacotherapy in pregnancy and breast feeding.
