## Regulation for conducting a semester exam in Medical Physics for students of the specialty "Medicine"

### FORM OF THE EXAM:

- The semester exam is in the form of an in-person exam.
- The examination form is written and includes the following components:
  - 20 test questions, each with three possible answers, only one of which is correct;
  - Development of one topic from the Medical Physics syllabus for the specialty "Medicine". The topic will be drawn on the day of the exam.
- The exam time is 60 minutes.

### ASSESSMENT OF THE WRITTEN EXAM:

- Test evaluation - the maximum number of points is 20. For each correct answer to a test question, the student receives 1 point. The evaluation of the test part is formed as follows:
  - ( $\leq 12$  p.) - Poor (2);
  - (from 13 p. to 14 p. incl.) - Average (3);
  - (from 15 p. to 16 p. incl.) - Good (4);
  - (from 17 p. to 18 p. incl.) - Very good (5);
  - (from 19 p. to 20 p. incl.) - Excellent (6).
- Evaluation of the developed topic will be carried out according to item 13 of the Academic Standard for the academic disciplines "Medical Physics and Biophysics".
- The grade for the written exam will be formed as an average of the grades from the test part and the developed topic.

### FORMING A FINAL EXAM GRADE:

- The final grade for the discipline "Medical Physics" for the specialty "Medicine" will be formed according to item 14 of the Academic Standard for the academic disciplines "Medical Physics and Biophysics".

Date: 23 Dec 2025
