

Dear students,

The examination consists of three components, and the final grade will be calculated as the arithmetic mean of the grades obtained in the individual disciplines.

Epidemiology

The Epidemiology examination includes:

- an entrance test consisting of 15 multiple-choice questions with one correct answer;
- two written questions from the syllabus: one from General Epidemiology and one from Special Epidemiology.

To pass the entrance test, students must answer at least 10 questions correctly.

Infectious Diseases and Tropical Medicine

The examination in Infectious Diseases and Tropical Medicine includes:

- an entrance test consisting of 25 multiple-choice questions with one correct answer;
- two written questions (essays) from the syllabus.

To pass the entrance test, students must answer at least 15 questions correctly.

Parasitology

The Parasitology examination includes:

- an entrance test consisting of 10 multiple-choice questions with one correct answer;
- two written questions from the syllabus: one on local parasites and one on tropical parasites.

To pass the entrance test, students must answer at least 6 questions correctly.

Students who receive a failing grade in one or more components during a resit session will be required to retake only the respective component(s) (discipline[s]).

The table below presents the group distribution and examination schedule.

The examination is scheduled to begin at 7:30 a.m. Students are required to be present outside their assigned classrooms by 7:20 a.m. and must bring their student record books.
