Regulations for the Final Semester Examination in General and Inorganic Chemistry

The final semester examination in **General and Inorganic Chemistry** is conducted **on campus**. The examination consists of a written test containing **multiple-choice and/or open-ended questions** provided in hard-copy format. Depending on their complexity, individual questions are awarded **1 or 3 points**. The duration of the examination is **90 minutes**.

The written examination is graded according to the percentage of the maximum possible score, as shown below:

Percentage of Correct Answers Grade

≤ 60%	Poor (2.00)
61% – 70%	Satisfactory (3.00)
71% – 80%	Good (4.00)
81% – 90%	Very Good (5.00)
91% – 100%	Excellent (6.00)

The **final course grade** is calculated in accordance with the **Academic Standard for the course "General and Inorganic Chemistry"**, taking into account the results of the continuous assessment and the written final examination.

The examination results and final grades are announced **within three working days** after the examination.

Following the announcement of the results, students have the right to review their examination papers and the grading criteria in accordance with the procedures established by the **Academic Standard for General and Inorganic Chemistry** and the internal regulations of the **Medical University of Plovdiv**.

Prof. Kiril Gavazov, PhD

Head of the Department of Chemical Sciences
